DATA SHEET. Model: FIL-450B.

Self-contained emergency luminaire with maintained functioning of the FI Led Series.

Description

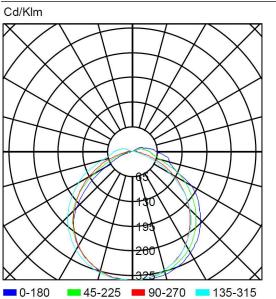

Watertight self-contained emergency luminaire for operation in a temperature range of -40°C to 40°C. Series consisting of a luminaire whose electronics regulates the battery temperature in any changing environment (freezing chambers, contrast between day and night, etc.) and a BE-L watertight box. Surface mounting, flush mounting by means of a stainless steel frame or suspended through an orientation kit.

Illumination through LED strip (without internal diffuser) with standard transparent diffuser. High quality, resistant design, including three cable entries for PG-13,5 cable glands and supplied with two plugs.

Technical characteristics

reennear en ar acceristic	5	Thotomethe curve
Lamp in emergency	9 x LED White 5,700 K	Cd/Klm
Lamp in maintained	9 x LED White 5,700 K	X / F
Flux in emergency	450 lm	XXL
Flux in maintained	450 lm	X X
Charge indicator	1 x LED green	NXH
